FURNITURE AND INTERIORS

Design spotting: Pop art-inspired Book Sofa by Prospettiva

Design spotting: Pop art-inspired Book Sofa by Prospettiva

Not just a piece of furniture, this is pop art for the living room. Or alternatively, the **Book Sofa by Prospettiva**, designed by *Randy Colombo*.

It's a sofa of course, with the 'K' doubling up both as design price and side table or just somewhere to rest your reading matter.

Each one is craftsman made in Italy, with a solid wood structure, with 'high resistance and high resilience polyurethanes' for comfort and support and with a water-repellent, hypoallergenic and abrasion resisting covering.

There are over 20 different colour combinations to choose from and the option of a two or three-seater sofa. What we don't know is the price, but you can contact the marker for that as well as a list of stockists.

[Find out more at the Prospettiva website](#)
